## **BlueCare**

BlueCare is dedicated to supporting families impacted by dementia by providing specialised training for their care staff and offering expert guidance to families navigating the challenges of caring for a loved one with dementia.

They offer a Dementia Consultant Service that provides personalised support, including expert advice, practical tailor-made strategies, and emotional support to help individuals living with dementia and their families feel confident and empowered in their dementia journey. Bluecare also offers dementia care respite in the home, including overnight and weekend care, to give carers a break and ensure their loved ones are well cared for.

It's about ensuring every person can live life their way, in their own home, surrounded by what matters most to them.

## **Queensland Brain Institute**

QBI's scientists are pushing the boundaries of brain research, uncovering the brain's immense potential while advancing solutions for some of the most devastating neurological conditions—from mental health disorders to neurodegenerative diseases. Their ground-breaking discoveries in fundamental science have paved the way for promising clinical trials, including new treatments for Alzheimer's disease and motor neurone disease.

The QBI Brain Research Endowment Fund empowers the brightest scientific minds to pursue transformative research. Philanthropy is the driving force behind these breakthroughs, providing essential funding that fuels innovation and accelerates the development of new approaches to lessen the challenges of brain-related disorders for future generations.
